About the collection

Remembering Tomorrow is the latest collection by Ellie's Quiltplace. Similar to the previous collections, it uses influences from Ellen's own, European-inspired diverse color palette and also reflects her love for smaller prints. It contains the more popular colors from the previous collections, Past & Present and Modern Traditions, along with some new colors and shades. All the fabrics are perfect for use in patchwork and quilting, dressmaking and much more.

About Ellie's Quiltplace

Ellie's Quiltplace or EQP is a family company based in Belgium, founded in 2006 by Ellen Remijnse. Whilst known primarily for her patchwork patterns, Ellen has recently started designing fabrics. Ellen studied history and combines her interest in antique quilts with a fresh and modern country touch to create her own style. EQP aims to create beautiful collections of fabrics and patterns with a European influence, for the quilting world.
